

FREQUENTIS DEFENCE

DELIVERS COMMUNICATION AND INFORMATION SOLUTIONS, OFFERING NETWORK CENTRIC CAPABILITIES AND MAKING NETWORK CENTRIC OPERATIONS REALITY.

FREQUENTIS IS THE GLOBAL LEADER IN COMMUNICATION AND INFORMATION TECHNOLOGY FOR SAFETY AND MISSION CRITICAL APPLICATIONS. DUE TO EXTENSIVE KNOW-HOW GAINED FROM A SUBSTANTIAL NUMBER OF LARGE-SCALE PROJECTS FOR DEFENCE AGENCIES ACROSS THE GLOBE, FREQUENTIS IS INTERNATIONALLY RECOGNISED FOR ITS EXPERTISE IN DEFENCE TECHNOLOGIES. TOP ENGINEERS AND SPECIALISTS IN R&D ASSURE THE TECHNOLOGICAL LEADERSHIP AND PARTICIPATE IN INTERNATIONAL RESEARCH PROGRAMMES, EXPERT GROUPS AND STANDARDISATION BODIES.

The Frequentis Defence product portfolio spans the areas:

- user/role/mission management
- circuit-switched systems
- network centric packet based (IP) systems
- stationary and deployable communication systems
- information systems and networks
- standalone systems and nation wide networks
- voice and data communication solutions
- for ground/air and ground/ground communications
- Tower Automation Tools and Information Systems
- recording solutions for voice and data
- Terrestrial Trunked Radio TETRA (Frequentis eXTRAS)

Based on our IT know-how combined with our experience in military networks and applications, we can support our customers with an extensive range of services:

- studies
- requirement and usability analysis
- technology consulting
- network integration
- project management
- training - technical and enduser
- Integrated Logistic Support

Defence organisations as well as leading manufacturers rely on Frequentis unrivalled know-how in following areas of competence:

- mission critical applications
- real time services
- network centric operations
- ad-hoc deployable architectures
- distributed systems
- service oriented architectures
- security aspects and concepts
- process analysis
- multi-lateral information exchange
- semantic data classification - ontologies
- collaborative decision making tools
- workflow management
- visualisation and user interface design
- graphical data analysis

→ We build highly reliable Communication and Information Solutions for Mission Critical Areas – We are dedicated to make Network Centric Operations reality!
