

Air Traffic Management

Excellence, Delivered

The next-generation air traffic control system (NextGen) will require new approaches to the deployment of ATC solutions. For many decades Frequentis has been at the forefront of these new developments by consistently delivering voice and data communication systems to the Federal Government, local municipalities and corporate customers. With over 14,000 operator positions installed in over 60 countries around the world, Frequentis is the market leader in its industry.

Frequentis key technology installations in North America include

- FAA terminal voice switch replacement program (IVSR),
- FAA's Premier Air Traffic Control System Command Center (ATCSCC) voice conference systems (CCS, CCS-W)
- Electronic Flight Strips for Alaskan Flight Service Stations & US Air Force
- NASA's voice conference systems at all major space operations centers worldwide (NASA MOVE)
- NavCanada's en-route center and terminal voice switches, (CAATS, NVCS)

Frequentis air traffic management products support:

- US National Airspace System (NAS) Terminal, Enroute & Oceanic Communications, Command & Control, Communications Networking Programs (FAA, US Air Force, US Navy, Commercial Providers, etc.)
- Airport Operations and Security Centers (NATO Air Policing, Protect Airport & 911 Public Safety)
- Airline Operations Control Centers (AOCCs)
- NASA Space Operations Centers

The excellent engineering quality of Frequentis systems and our proven understanding of safety-critical processes is underpin our success in delivering technology solutions and services for Air Traffic Management and aviation users and service providers.

• FAA Interim Voice Switch Replacement System (IVSR)	• 3020 MOVE – NASA Voice Conferencing and Control System
• VCS 3020 – Enroute and Terminal Voice Switch	• smartAIM™ Aeronautical Information Management
• VCS 3020 CCS – Voice Conferencing and Control	• smartMessenger ATS Message Handling System (AMHS)
• smartStrips® EFS – Electronic Flight Strips	• TAPtools™ Tower Automation Products
• DIVOS3log™ Voice and Data Recording Solutions	• smartSiS™ Information Display Systems
• VCX – Radio Network Equipment	• PROTECT™ - Airport Security Dispatch System
