

Air Traffic Control Association awards FREQUENTIS Massimo Garbini prestigious Glen A. Gilbert Memorial Award 2022

- **Annual Glen A. Gilbert Memorial Award is Air Traffic Control Association (ATCA)'s highest honor and one of the most prestigious awards in aviation**
- **Massimo Garbini, is Frequentis ATM executive Board Member with 45 years of industry experience including time as Managing Director of the SESAR Deployment Manager**
- **Award was presented at the ATCA Global event in Washington D.C, November 8, 2022**

Massimo Garbini, Frequentis Air Traffic Management (ATM) executive Board Member, has been selected as the 2022 recipient of the [Glen A. Gilbert Memorial Award](#) – the Air Traffic Control Associations (ATCA's) highest honour and one of the most prestigious awards in aviation. The award was presented at the Glen A. Gilbert Memorial Award Banquet as a part of the ATCA Global Conference and Exposition, taking place from 7-9 November 2022.

The aviation community comes together annually to recognise an individual's outstanding, lifelong achievements in aviation. With over 45 years of air traffic management experience, holding top positions in air traffic management across Europe, Massimo began his career in the Italian Air Force as an air traffic controller. In his time he has also served on the executive committee at CANSO and was appointed by the European Commission as Chairman of the Network Management Board.

Another major achievement for Massimo was his role as Managing Director of the SESAR Deployment Manager, the entity that synchronises and coordinates the modernisation of Europe's air traffic management system under the political oversight of the European Commission. In June 2015 he formally delivered the first SESAR Deployment Programme to the Directorate General for Mobility and Transport of the European Commission. A significant milestone in the modernisation of European ATM technology.

“We congratulate Massimo for this well-deserved award and would like to thank him for his contributions to the industry, as well as his active engagement within Frequentis, for a safer world,” says Hannu Juurakko, Frequentis Vice President ATM and Chairman of the ATM Executive Board.

About FREQUENTIS

Frequentis is a global supplier of communication and information systems for control centres with safety-critical tasks. The listed family-run company develops and markets its “control centre solutions” in the Air Traffic Management segment (civil and military air traffic control, air defence) and the Public Safety & Transport segment (police, fire brigades, emergency rescue services, coastguards, port authorities, railways). With a market share of 30%, Frequentis is the world market leader in voice communication systems for air traffic control. Frequentis is also the global leader in aeronautical information management and aeronautical message handling systems.

As a global player with around 2,000 employees (full-time equivalents/FTE), Frequentis has a global network of companies in more than 50 countries. Its head office is in Vienna, Austria. Frequentis’ products, services, and solutions are used at more than 40,000 operator working positions in around 150 countries. Shares in Frequentis are traded on the Vienna and Frankfurt stock exchanges; ISIN: ATFREQUENT09, WKN: A2PHG5. In 2021, revenues were EUR 333.5 million and EBIT was EUR 29.0 million.

Wherever Frequentis’ systems are used, safety-critical operators bear responsibility for the safety of other people and goods. The company also works towards a more sustainable future through its air traffic optimisation solutions.
