FREQUENTIS C4i and SAMI L3Harris Technologies to collaborate on defence communications in Saudi Arabia

- **The Memorandum of Intent signed between both parties sets collaboration framework for defence communication programmes supporting localisation objectives in Saudi Arabia**
- **Agreement aligns C4i's VOICE C2 system expertise with SAMI L3Harris in-country delivery and support capabilities**

Frequentis C4i, as the original equipment manufacturer of the VOICE C2 communication system currently in use by the Royal Saudi Air Force, has signed a Memorandum of Intent (MOI) with SAMI L3Harris Technologies to explore collaboration on defence communication opportunities in the Kingdom of Saudi Arabia.

The MOI establishes a framework for cooperation between the two organisations, focused on current programmes and future offers in the field of program delivery and local support aligned with Saudi Arabia's defence capability localisation objectives.

"This Memorandum of Intent reflects a practical step toward closer cooperation on secure command-and-control communications and local capabilities," says Darren Gardner, Managing Director at C4i.

"We are proud to formalise this Memorandum of Intent with Frequentis C4i, a recognised leader in mission-critical C2 voice communication technology," says Adrian Kemps, CEO SAMI L3Harris. "This collaboration represents a strategic step forward in delivering secure, resilient, and interoperable C2 communication systems to the Kingdom. By combining Frequentis C4i's advanced VOICE C2 capabilities with SAMI L3Harris' tactical communication capabilities, we are strengthening our ability to support complex operational environments with reliable, future-ready solutions. Together, we are committed to enhancing mission effectiveness and ensuring operational superiority for our customers."

The MOI also provides for ongoing discussions between the parties to review technical and operational requirements as defence needs and technologies evolve. The planned collaboration focuses on knowledge sharing, local support capability, and coordinated program delivery for future opportunities in Saudi Arabia.

About C4i

C4i has been a member of the Frequentis Group since 2021. Founded in 1989, C4i has led advancements in secure communications for the world's most demanding mission-critical environments.

C4i's interoperable communication solutions are used by defence, governments, and industry in more than 40 countries. C4i products enable rapid response times, interoperability, and flexible asset utilisation, and provide customers with ongoing cyber security protection.
