Spotlight on success

Air Traffic Management – General Civil Aviation Authority (GCAA), United Arab Emirates

Frequentis has had a close partnership with GCAA for many years while providing a wide range of products and services like VCS, automation, AIM, AHMS and surveillance solutions. Our ATM components provide redundancy and resiliency serving both the main and the emergency Area Control Center.

Air Traffic Management – Saudi Air Navigation Service (SANS), Kingdom of Saudi Arabia

State-of-the-art technology for high availability voice communications systems based on IP technology for SANS Airspace Control Center in Riyadh and Jeddah. Additionally, cross-country implementations of IP recording systems and twelve tower solutions with VCS.

Air Traffic Management – Abu Dhabi Airport Company (ADAC), United Arab Emirates

ADAC uses a fully duplicated IP VCS systems for Al Bateen and Delma Airports. In addition two TDM-based VCS systems provide backup communications for ADAC in their ATC towers at Abu Dhabi International Airport.

Defence – Royal Saudi Air Force, Kingdom of Saudi Arabia

Fully redundant smartAIM & smartMessenger solution integrated in a net-centric and SWIM-compatible solution designed to automate the management of aeronautical information. smartAIM greatly simplifies the transition from AIS to AIM. The solution is fully in line with SESAR, NEXTGEN and OGC developments.

Defence – United Arab Emirates Air Force (UAEAF), United Arab Emirates

Frequentis delivered the ground-air-ground communication systems that are fully redundant. This is including the integration of a smartStrips electronic flight strip solution for the towers of the UAEAF.

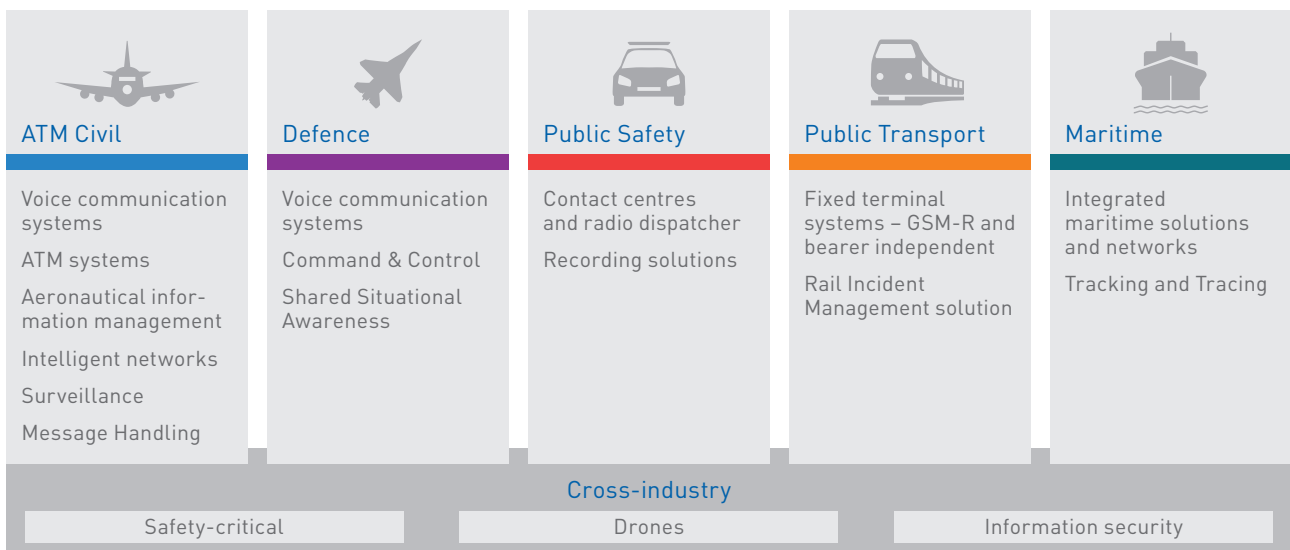

Maritime – GMDSS, Sultanate of Oman

The new Maritime Radio Communications Operations Centre in Muscat sits at the heart of the GMDSS service. Frequentis is supplying the communications infrastructure and an integrated AIS system.

FREQUENTIS

FOR A SAFER WORLD

Regional portfolio

Frequentis Middle East offers the full range of solutions developed within the Frequentis group based on expertise in voice and data communications, information management, networking technologies, surveillance, AIM and message handling.

The company philosophy focuses on practical usability, providing user-centric systems that conceal the

underlying complexity to support rapid, effective and cost-efficient operations.

Designed specifically for the rigours of mission-critical industries, Frequentis solutions are certified by numerous global authorities and deployed by hundreds of high-profile organisations worldwide, including major government and defence organisations across the Middle East.
