Air Traffic Management

Public Safety & Transport

Contributing significantly to the successful completion of safety tasks
Vision: #1 in control centre solutions

Voice & data communication
Backbone of operational control
Channelling information and transmitting to all relevant recipients.

Tactical situation tools
Displaying the current situation
Objects to be controlled and the operational environment.

Planning & management tools
Supporting decisions
Basing decisions on the information available. Documenting the process.

Safety-critical networks
Ensuring seamless business continuity
Brokering between safety-critical applications and non-specialized commercially available networks.
A strong network around the world

30,000+ working positions using Frequentis solutions

500+ customers in 140 countries

90% of all air passengers globally are served by Frequentis customers

33% of the world safer with Frequentis networks

#1 in GSM-R dispatcher terminals

240,000 km protecting the largest maritime coastline
Sustainable growth – for more than 30 years
Drivers of our long-term growth are increasing mobility, digitalisation, and rising safety and security requirements
