

## Market Values

### Flexible service level:

Service throughput can be configured according to the expected number of calls and live interactions. Yet, the full range of tools is always included, no optional paid-for functionality!

### The FlagMii® EML philosophy:

- THE PUBLIC-SAFETY PERSPECTIVE:  
**A multimedia revolution in incident response**
- THE CALL-TAKER PERSPECTIVE:  
**Enhancing the situational awareness**
- THE CITIZEN'S PERSPECTIVE:  
**Enhancing people's sense of safety**

### Keys to success

- **Freedom from appliances and installations**  
All you need is a smartphone, which becomes an outpost of the Operation Centre at the incident scene!
- **Best technology on the market**  
FlagMii EML® is the most effective tool when it comes to interacting with the person asking for help.
- **Fastest return on investment**  
Very short set-up and commissioning times. Instant results. Customer satisfaction is tangible.
- **Multimedia approach: intuitive and practical**  
Easy to explain, rewarding to use. The era of stuffy, complex applications is over!
- **Cost-effective technology boost**  
Can be integrated into existing systems to provide immediate upgrade for any Public Safety facility.

## Using FlagMii® EML for childbirth assistance

FlagMii® EML is a crucial tool for saving lives. But the story starring Elisa and little Alex tells how FlagMii® EML is also important for a new life to be born.
