

John J. Theuerkauf III

Vice President
Frequentis Defense Inc.

Education John earned his Bachelor of Science degree in Mechanical Engineering from the University of Maryland, College Park.

Career Since joining the Frequentis organization in 2007, John has held several key positions, including Director of Engineering at Frequentis USA Inc. There, he established a robust engineering organization that provided air traffic control and mission control communication systems to the FAA, NASA, and various civil customers. His leadership has been pivotal in managing engineering teams that develop and deliver highly available communication and information systems to mission-critical clients across the U.S.

Frequentis John serves as Vice President at Frequentis Defense Inc. (FDI), where he leads the engineering organization and the Command and Control (C2) business unit. His team delivers mission-critical communication systems to U.S. and global military C2 customers, including command posts, air operations centers, mobile command posts, and joint operations centers.

He lives in Maryland with his wife, Casey, and their two children. The family enjoys exploring the outdoors together.
